Subject: Support SB32

I support a raise in the minimum wage.

Give hard working people the brake they need.

\$10.10 is little enough! It should be higher, but are willing to accept as little as that! Really shameful not to suppor a livable wage.

They should have raised it to \$12.00 as a start.

Let's show an example Connecticut, we have done it before. I am very proud of our State, and beleive we will do the right thing!

Thanks.
